08/01/12 00:00 CST 0 Drought

08/31/12 23:59 CST 0

Persistent below normal precipitation allowed severe drought conditions to continue across all of northeast lowa. With the continued lack of precipitation portions of southern Clayton and Fayette Counties along with the southwest sections of Floyd County deteriorated to extreme drought. Affects of the drought include damaged crops, pastures that have stopped growing, river flows that were less than 20 percent of normal, falling ground water levels and burning bans. In early August, the U.S. Dept. of Agriculture declared 42 counties in lowa to be natural disasters areas. This included both Clayton and Fayette Counties. The U.S. Dept. of Agriculture also announced an expansion of emergency haying and grazing on conversation land to bring greater relief to livestock producers dealing with shortages of hay and pastureland. The State of lowa also announced that 6,000 acres of grasslands enrolled in the Wetland Reserve Program would be opened up to haying and grazing. Ethanol producing plants across lowa voluntarily slowed production as corn prices rose and supplies tightened. Production was cut about 20 to 30 percent. The lowa State Climatologist declared the 2012 drought worse than the 1988 event and the worst since 1936 because this years drought has eclipsed 1988 for breadth and severity. The lowa Dept. of Agriculture started requiring all milk produced or received in the state to be tested for aflatoxin. Aflatoxin can sometimes be found in drought stressed corn, which when consumed by cows could pass into their milk. Alfatoxin is a concern because it is a known carcinogen and can cause damage to a person's liver.

HOWARD COUNTY --- 0.3 NNE RICEVILLE [43.37, -92.55]

08/04/12 09:15 CST 0 Lightning

08/04/12 09:15 CST 2 0 Source: Newspaper

Two young boys were injured when lightning struck a tree they were taking shelter under while fishing at the Lake Hendricks park and campground near Riceville. One boy was listed in critical condition after being transferred to St. Marys hospital in Rochester, Minnesota. The second boy only received minor injuries and was treated and released from a local hospital.

Two young boys were injured when lightning struck a tree they were taking shelter under while fishing at Lake Hendricks near Riceville (Howard County). One boy was seriously injured and transported to a Rochester, MN hospital. The other boy only sustained minor injuries and was treated and released from a local hospital.

FLOYD COUNTY --- 0.4 WNW CHARLES CITY ARPT [43.07, -92.61]

08/08/12 17:45 CST 0 Thunderstorm Wind (MG 55 kt)

Trees were blown down south of Brooks.

As a cold front moved across Wisconsin, it sparked severe thunderstorms during the late evening of August 15th into the early morning hours of August 16th. These storms produced a path of damaging winds and large hail from the southern portions of Buffalo County to the southeast corner of Adams County. The most concentrated wind damage was near the Trempealeau-La Crosse County line, including communities of Galesville and Holmen, where estimated winds of 60 mph knocked down several trees and power lines. Most of the hail was estimated to be about the size of a quarter with this falling for up to 10 minutes at Perrot State Park (Trempealeau

JACKSON COUNTY 1.7 WNW WINNEBAG	GO MISSION [44.33, -90.81]			
	08/24/12 03:20 CST		0.21M	Lightning
	08/24/12 09:30 CST		0	Source: Newspaper

A log home was completely destroyed by a fire that was started by a lightning strike. Fire crews were first called to the area around 330 a.m. but found no evidence of a fire and left. They returned to the scene around 5 a.m. to find the home completely engulfed in flames. Three fire departments battled the fire for over 4 hours. Local officials estimated the value of the home and contents at just over \$200,000.

A lightning strike from early morning thunderstorms on August 24th produced a fire that destroyed a log home north of Black River Falls (Jackson County). Fire crews were originally called to the scene around 330 a.m. but did not find any evidence of a fire and left. They were called back around 5 a.m. and found the home fully engulfed in flames. Local officials estimated the value of the home and its contents at just over \$200,000.
